Auditing Procedures Report

Issued under P.A. 2 of 1966, as amended.

Local Government Type <input type="checkbox"/> City <input checked="" type="checkbox"/> Township <input type="checkbox"/> Village <input type="checkbox"/> Other		Local Government Name Huron Township	County Huron
Audit Date 3/31/05	Opinion Date 9/28/05	Date Accountant Report Submitted to State: 9/28/05	

We have audited the financial statements of this local unit of government and rendered an opinion on financial statements prepared in accordance with the Statements of the Governmental Accounting Standards Board (GASB) and the *Uniform Reporting Format for Financial Statements for Counties and Local Units of Government in Michigan* by the Michigan Department of Treasury.

We affirm that:

1. We have complied with the *Bulletin for the Audits of Local Units of Government in Michigan* as revised.
2. We are certified public accountants registered to practice in Michigan.

We further affirm the following. "Yes" responses have been disclosed in the financial statements, including the notes, or in the report of comments and recommendations.

You must check the applicable box for each item below.

- ☐ Yes ☒ No 1. Certain component units/funds/agencies of the local unit are excluded from the financial statements.
- ☐ Yes ☒ No 2. There are accumulated deficits in one or more of this unit's unreserved fund balances/retained earnings (P.A. 275 of 1980).
- ☒ Yes ☐ No 3. There are instances of non compliance with the Uniform Accounting and Budgeting Act (P.A. 2 of 1966, as amended).
- ☐ Yes ☒ No 4. The local unit has violated the conditions of either an order issued under the Municipal Finance Act or its requirements, or an order issued under the Emergency Municipal Loan Act.
- ☐ Yes ☒ No 5. The local unit holds deposits/investments which do not comply with statutory requirements. (P.A. 20 of 1943, as amended [MCL 129.91], or P.A. 55 of 1992, as amended [MCL 38.1132]).
- ☐ Yes ☒ No 6. The local unit has been delinquent in distributing tax revenues that were collected for another taxing unit.
- ☐ Yes ☒ No 7. The local unit has violated the Constitutional requirement (Article 9, Section 24) to fund current year earned pension benefits (normal costs) in the current year. If the plan is more than 100% funded and the overfunding credits are more than the normal cost requirement, no contributions are due (paid during the year).
- ☐ Yes ☒ No 8. The local unit uses credit cards and has not adopted an applicable policy as required by P.A. 266 of 1995 (MCL 129.241).
- ☐ Yes ☒ No 9. The local unit has not adopted an investment policy as required by P.A. 196 of 1997 (MCL 129.95).

To the Township Board
Huron Township
Port Hope, MI 48468

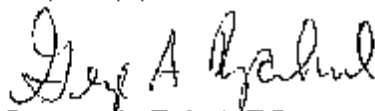

The following comments related to situations that came to my attention during the course of my recent examination of the Huron Township's financial statements as of and for the year ended March 31, 2005, and are submitted for your evaluation and consideration. I would like to emphasize that, since my examination was conducted for the purpose of expressing an opinion on the previously referred to financial statements, these comments are not necessarily all inclusive.

1. The Township over-expended in the General Fund in comparison to the budget. This excess of expenditure over budget amount is in violation of P.A. 621. The Board should avoid such violations by periodically reviewing actual expenditures and revenues as compared to budget amounts.
2. Ideal internal control provides for separation of the accounting function from the actual handling of funds. There should be a separation of the recording function in the books and records and the actual handling of funds including deposits and disbursements. Due to the limited staff size, a lack of complete separation of accounting duties was noted. The cost exceeds the benefit of correcting this weakness, thus management has deemed that a corrective action is not practicable under the circumstances.

If you would need assistance in implementing the above, I would be happy to assist you.

I want to take this opportunity to thank the Board for selecting me to do your audit, and I want to thank the Township Officials for their help and assistance during the audit.

Very truly yours,

George A. Zahul, PC

Independent Auditor's Report

To the Township Board
Huron Township
Port Hope, MI 48468

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Huron Township's, as of and for the year ended March 31, 2005, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Huron Township's management. My responsibility is to express opinions on these financial statements based on my audit.

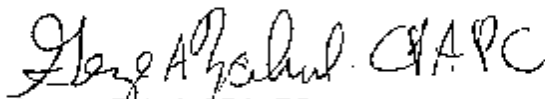

I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Huron Township as of March 31, 2005, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, I have also issued my report dated September 28, 2005, on my consideration of the Huron Township's internal control over financial reporting and my test of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

My audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the general purpose financial statements of the Huron Township. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly stated, in all material respects in relation to the general purpose financial statements taken as a whole.

**Report on Compliance and on Internal Control Over Financial
Reporting Based on an Audit of Financial Statements Performed
in Accordance with Government Auditing Standards**

To the Township Board
Huron Township
Port Hope, MI 48468

I have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Huron Township as of and for the year ended March 31, 2005, which collectively comprise Huron Township's basic financial statements and have issued my report thereon dated September 28, 2005. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

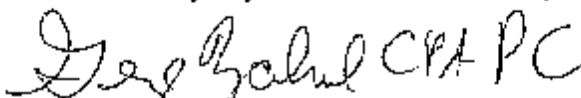

Compliance

As part of obtaining reasonable assurance about whether the Huron Township's general purpose financial statements are free of material misstatements, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, I noted certain immaterial instances of noncompliance that I have reported to management of Huron Township, in a separate letter dated September 28, 2005.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Huron Township's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended solely for the information and use of the Village Council, the State of Michigan, and the United States Department of Agriculture Rural Development and is not intended to be and should not be used by anyone other than those specified parties.

Huron Township Management's Discussion and Analysis

This section of the Township's annual financial report presents our discussion and analysis of the Township's financial performance during the fiscal year that ended on March 31, 2005. Please read it in conjunction with the township's financial statements, which immediately follow this section.

Financial Highlights

The 2004/05 fiscal years resulted in a Fund Balance in the General Fund of \$466,411.66. This was an expected result for the Township. The Fund Balance was slightly higher than was originally budgeted.

In total, Township revenues exceeded \$211,711 for fiscal year ended March 31, 2005. Spending over the same time period was \$157,775. In both cases that was an decrease of approximately \$14,000 over fiscal 2003 for revenues and an increase of \$66,400 for spending.

Overview of the Financial Statements

This annual report consists of four parts – management's discussion and analysis (this section), the basic financial statements, required supplementary information and other supplementary information. The basic financial statements include two kinds of statements that present different views of the Township:

The first two statements are township-wide financial statements that provide both short-term and long-term information about the Township's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the Township's government, reporting the Township's operations in more detail than the township-wide statements.

Government-Wide Statements

The Government-wide statements report information about the Township as a whole using accounting methods similar to those used by private-sector companies. The statements of net assets include all of the Township's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Township's net assets and how they have changed. Net assets – the difference between the Township's assets and liabilities – are one way to measure the Township's financial health or position.

Huron Township Management's Discussion and Analysis

The government-wide financial statements of the Township are divided into categories:

Governmental Activities – Most of the Township's basic services are included here, such as public safety, public works, and general administration. Property taxes, state-shared revenue, and charges for services provided most of the funding.

Business-type Activities – The Township operates a sewer system and charges fees to customers to help cover the costs of certain services it provides. The Township's sewer and water system is treated as a business-type activity.

Fund Financial Statements

The fund financial statements provide more detailed information about the Township's funds, focusing on its most significant or "major" funds – not the Township as a whole. Funds are accounting devices the Township uses to keep track of specific sources of funding and spending for particular purposes:

Some funds are required by State law and by bond covenants.

The Township establishes other funds to control and manage money for particular purposes.

The Township has three types of funds:

Governmental Funds – Most of the Township's basic services are included in governmental funds, which focus on how cash and other financial assets can readily be converted to cash flow in and out, and the balances left at year end that are available for spending. The governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs.

Proprietary Funds – Services for which the Township charges customers a fee are generally reported in proprietary funds. Proprietary funds, like government-wide statements, provide both long-term and short-term financial information.

Fiduciary Funds – The Township is responsible for ensuring that the assets reported in these funds are used for intended purposes. All of the Township's fiduciary activities are reported in a separate statement of Assets and Liabilities. These activities are excluded from the Township's government-wide Financial Statements, because the government cannot use these resources.

Huron Township Management's Discussion and Analysis

Financial Analysis of the Township as a Whole

Net Assets

Township net assets increased during the fiscal 2005. Depreciation of Township assets, of \$2,441.00, as opposed to no purchases also had an impact.

Huron Township Management's Discussion and Analysis

Governmental Activities

Revenues for governmental activities totaled \$426,458 in 2005. A total of \$155,319 was in the form of property tax collections. State-shared revenues continue to be of concern. While it provided \$32,469, we are uncertain what will happen in 2006 given the State's financial difficulties. Charges for services, primarily for sewer, water, and safety operations, generated \$209,642.

Financial Analysis of the Township's Funds & Budgets

The General Fund ended 2005 with a fund balance of \$466,643. Several factors affected operating results. Tax collections were \$155,319 for 2005. Additionally, other revenue was \$44,436 in 2005. Total revenues in the General Fund of \$199,754 exceeded expenditures of \$148,679 by \$51,076 leaving an increase of \$51,076.

The General Fund budget is amended throughout the year as deemed necessary. This is primarily done to prevent expenditures from exceeding the budget. With that in mind, the General Fund expenditures were 96 percent of budget. No major General Fund areas were significantly under or over budget.

Capital Assets and Debt

The Township made capital purchases during the year of \$216,951 and reduced debt by \$21,000.

Factors Bearing on the Township's Future

At the time these financial statements were prepared and audited, the Township was aware of several areas that could have a major impact on the 2004/2005 fiscal year, and subsequent years.

Township summer 2005 taxes have close to the same millage rate as last year. Most of the money collected goes for the operating expenses for the general fund.

At this time the Township was not aware of any areas that could have a major impact on the 2005/2006 fiscal year and subsequent years.

Contacting the Township's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers and investors and creditors with a general overview of the Township's finances and to demonstrate the Township's accountability for the money it receives. If you have questions about this report or need additional information, contact in writing the Business Office, Huron Township, 6590 Huron City Road, Port Hope, MI 48468.

Huron Township
Notes to Financial Statements
March 31, 2005

Note 1 - Summary of Significant Accounting Policies:

The accounting policies of the Local Governmental Unit conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Local Governmental Unit:

A. Reporting Entity

The Local Governmental Unit is governed by an elected council (Board). The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Although blended component units are legal separate entities, in substance, they are part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non fiduciary activities of the primary government and its component units. For the most part, the effect of inter fund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the government's expendable financial resources and the related current liabilities are accounted for through governmental funds.

The Government reports the following major governmental fund:

The general fund is the Government's primary operating fund. It accounts for all financial resources of the Government, except those required to be accounted for in another fund.

Huron Township
Notes to Financial Statements
March 31, 2005

Other Non-Major Funds

The special revenue funds account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects). The Government accounts for its major and local street activities in the special revenue funds.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes recognized as revenue in the year for which they are levied. Grants and similar items are recognizes as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of inter fund activity has been eliminated from the district-wide financial statements.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted State aid.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The government has elected not to follow private-sector standards issued after November 30, 1989 for its business-type activities.

Huron Township
Notes to Financial Statements
March 31, 2005

Proprietary funds distinguish operating revenue and expenses from non operating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with and proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relate to charges to customers for sales and services. The water and sewer fund also recognizes the portion of tap fees intended to recover current cost (e.g., labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as non operating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non operating revenue and expenses.

D. Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payable's

In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes are levied on each December 1st on the taxable valuation of property as of the preceding December 31st. Taxes are considered delinquent on March 1st of the following year, at which time penalties and interest are assessed.

Inventories and Prepaid Items

Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect cost applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

The revenue bonds of the enterprise funds require amounts to be set aside for construction, debt service principal and interest, operations and maintenance, and a bond reserve. These amounts have been classified as restricted assets, as well as amounts on deposit at the county being held for the construction or debt service of the Local Unit of Government's water and sewer lines.

Huron Township
Notes to Financial Statements
March 31, 2005

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment is depreciated using the straight-line method over its' estimated useful life.

Compensated Absences (Vacation and Sick Leave)

It is the government's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year-end.

Long-Term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Huron Township
Notes to Financial Statements
March 31, 2005

Comparative Data/Reclassifications

Comparative total data for the prior year has not been presented in the fund financial statements.

Note 2 - Stewardship, Compliance, and Accountability:

Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and State law for all Government Funds. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the Government to have its budget in place by the beginning of its fiscal year. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits governments to amend their budgets during the year. During the year, the budget was amended in a permissible manner. There were no significant amendments during the year.

Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Excess of Expenditures Over Appropriations in Budgeted Funds

During the year, the Government incurred expenditures in certain budgeted funds which were in excess of the amounts budgeted, as shown in the statements of Actual vs Budget.

Note 3 - Deposits and Investments:

Deposits

The Government's cash accounts consist of various interest bearing checking and savings accounts. At year-end, the carrying amount of the Government's deposits was \$887,543.47 and the bank balance was \$887,543.47.

Investments

State statutes authorize the Government to invest in obligations of the U.S. Treasury and U.S. agencies, deposit agreements with federally insured financial institutions within the State of Michigan, high grade commercial paper, repurchased obligations of the U.S. government and U.S. agencies, banker's acceptances of U.S. banks and mutual funds comprises of the above authorized investments. As of March 31, 2005, the Government investments consisted of certificates of deposit and Money Market Funds which the carrying amount and the bank balance was \$85,933.17.

The total Government cash and investments amounted to \$973,476.64 as of March 31, 2005 and \$675,000.00 was covered by Federal Depository Insurance.

Huron Township
Notes to Financial Statements
March 31, 2005

Note 4 - Receivables:

Receivables as of year end for the governments individual major funds and the other non major funds in the aggregate are shown in the respective statements.

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned.

Note 5 - Employee Retirement and Benefits Systems:

The Huron Township does not provide any employee retirement or benefits systems.

Note 6 - Contingent Liabilities:

Contingent Liability - Unemployment Compensation Costs

The Government has elected to be treated as a reimbursing employer for unemployment compensation purposes. Any unemployment benefits paid to Government employees by the Michigan unemployment fund must be reimbursed by the Government on a dollar for dollar basis. The contingent liability for unemployment benefits is not recognized in the accompanying financial statements. The expense is recognized at the time the Government becomes liable to the State of Michigan for unemployment benefits paid.

Note 7 - Proprietary Fund Fixed Assets:

Additions to the utility plant are recorded at cost or, if contributed property, at their estimated fair value at the time of contribution. Repairs and maintenance are recorded as expenses; renewals and betterments are capitalized. The sale or disposal of fixed assets is recorded by removing cost and accumulated depreciation from the accounts and charging the resulting gain or loss to income.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Water building and lines	50 years
Buildings	15-30 years
Equipment	10-20 years
Office equipment	5 years

Note 8 - Contributed Capital:

Contributed capital currently exists only in the Enterprise Fund. This capital has been used along with other Township resources to purchase or construct the sewer system currently in use within the Township. In order to more accurately reflect the equity remaining in these contributions, depreciation expense on fixed assets acquired by grants, entitlements and shared revenues is closes to contributed capital rather than retained earnings.

Huron Township
Notes to Financial Statements
March 31, 2005

Note 9 - Changes in Long-Term Debt - Sewer Fund:

The Township water system encompasses all of the Huron Township. Financing of construction was accomplished through Water Supply and Distribution Revenue and Special Assessment Improvement Bonds, authorized pursuant to Act 94, Public Acts of Michigan, 1933, as amended, issued under approval of the Department of Treasury, State of Michigan.

The following is a summary of bond transactions for the year ended March 31, 2005:

	BALANCE APRIL 1, <u>2004</u>	<u>ADDITIONS</u>	<u>DEDUCTIONS</u>	BALANCE MARCH 31, <u>2005</u>
Water Supply & Distribution	\$1,249,000	\$ -	\$ 13,000	\$1,236,000
